Open to remote full-time roles and contract work.

SUMMARY

Full-Stack & DevOps Engineer with 4+ years of experience building and running production web, mobile and AI products. At Kakushin (2023-2026) I ran the infrastructure for 19+ production applications and shipped web apps and native and cross-platform mobile apps to Google Play and the App Store. As a freelancer I specialize in headless Medusa.js commerce, with Top Rated status on Upwork and a 4.9-star rating from 68 reviews as a Level 2 Seller on Fiverr.

KEY ACHIEVEMENTS

- Ran infrastructure for 19+ production applications on a dedicated Linux server on Hetzner: Nginx, PM2, PostgreSQL, MongoDB and Redis.
- Built native Android (Kotlin, Jetpack Compose) and iOS (Swift, SwiftUI) apps for the Electricity Authority of Cyprus.
- Published 7 Android apps on Google Play, including MT4Life and DementiaBuddy, which also ship on iOS.
- Delivered a 9-phase B2B e-commerce platform on Medusa.js v2 for a German auto parts distributor.
- Shipped 45+ projects across e-commerce, booking, healthcare, education and AI products.

EXPERIENCE

Full-Stack Engineer & DevOps Lead

Jul 2023 - Sep 2026

Kakushin (AI and MVP studio)

DevOps and infrastructure

- Ran infrastructure for 19+ production apps on a dedicated Linux server on Hetzner: Nginx reverse proxy, PM2, PostgreSQL, MongoDB, Redis and MySQL, covering deployments, monitoring and server maintenance.
- Deployed and maintained apps across Hetzner, Vercel and Render, with Stripe payments and Postmark transactional email in production.
- Handled deployment and hosting for client products including Arena Two, Dinabite and Debate-Z.

iOS and Android development

- Built the AHK apps for the Electricity Authority of Cyprus: Android in Kotlin and Jetpack Compose (MVVM, Clean Architecture, Hilt) and iOS in Swift and SwiftUI, covering bills, payments, meter readings and real-time consumption tracking.
- Built and released React Native (Expo) apps on Google Play: Read My Cup, Read My Palm, Procast, MySizer and L3arn.
- Delivered MT4Life and DementiaBuddy as web apps plus iOS and Android apps, published on the App Store and Google Play.

Web and AI products

- Built BookMi (Next.js booking marketplace for venues and services) and Park2Go (airport parking reservations for Athens International Airport with Stripe).
- Integrated OpenAI into products including DementiaBuddy (voice-first AI companion for dementia care), Aicademiae (CEFR-aligned lesson generator) and AI Humanizer.
- Built Founders12, a startup accelerator platform with an admin dashboard, and SprintForge, an internal Jira-style project management tool shipped on the web and as an Electron desktop app, with a GitHub Actions pipeline that builds macOS and Windows releases from version tags.

Independent Full-Stack Engineer (Self-employed)

Oct 2022 - Present

Upwork (Top Rated) and Fiverr (Level 2 Seller) | Remote

- Built fahrzeugteilepro.de, a B2B auto parts platform for a German distributor, over 9 phases: custom Medusa.js v2 B2B cart module, customer accounts, order tracking, Docker deployment on Hetzner and a full UI/UX redesign.

- Built a production Medusa.js store from scratch for VitalSculpt Labs, with Plasmic visual editing so the client updates pages without code, deployed on Railway.
- Delivered Medusa v1 to v2 migrations, multi-vendor marketplaces (MercurJS), custom plugins (SendGrid, Wishlist, Algolia) and Next.js storefronts with production VPS deployments.
- Rated 4.9 stars across 68 Fiverr reviews; repeat and long-term clients in Germany and the UK.

SELECTED PROJECTS

fahrzeugteilepro.de - B2B auto parts e-commerce | Medusa.js v2, Next.js 15, TypeScript, PostgreSQL, Docker

AHK - Electricity Authority of Cyprus mobile apps | Kotlin, Jetpack Compose, Swift, SwiftUI

DementiaBuddy - Voice-first AI companion for dementia care | Next.js, OpenAI, iOS, Android | [dementiabuddy.app](#)

BookMi - Venue and service booking marketplace | Next.js, React, TypeScript | [bookmi.kakushin.io](#)

Park2Go - Airport parking reservations | Next.js, TypeScript, Stripe | [park2goairport.gr](#)

MT4Life - Personal growth platform | Web, iOS, Android | [mt4life.com](#)

SKILLS

Languages: TypeScript, JavaScript, Kotlin, Swift, Python, SQL

Frontend: React, Next.js, Angular, Redux, Tailwind CSS

Mobile and desktop: React Native, Expo, Jetpack Compose, SwiftUI, Android, iOS, Electron, Google Play and App Store releases

Backend: Node.js, Express.js, Medusa.js, MercurJS, REST APIs, Stripe, Firebase

Databases: PostgreSQL, MongoDB, MySQL, Redis, Firestore

DevOps and Cloud: Linux server administration, Nginx, PM2, Docker, GitHub Actions, CI/CD, Hetzner, Vercel, Render, Railway, Git

AI: OpenAI API, voice AI, AI content generation

EDUCATION

Bachelor of Science in Computer Science | Virtual University of Pakistan | Sep 2023 - Present

LANGUAGES

English (Professional), Urdu (Native), Hindi (Conversational)
